

Security Policies for VPN Connections during IKE Phase 1

Please note the correct writing of the policies. If the spelling of a security policy is not correct, the configuration will be ignored during the import.

IKE Strategies for *phase1ss*

```
"def/3des/sha";  
"Access to the WatchGuard Firebox";  
  
"alt/aes/sha";  
"Optimized for access to the AVM Access Server";  
  
"def/all/all";  
"All algorithms, DH group default";  
  
"alt/all/all";  
"All algorithms, DH group alternate";  
  
"def/all-no-aes/all";  
"All algorithms, DH group default";  
  
"alt/all-no-aes/all";  
"All algorithms without AES, DH group alternate";  
  
"alt/aes-3des/sha";  
"AES 256 Bit or 3DES, DH group alternate";  
  
"all/all/all";  
"All algorithms, DH group alternate (outgoing)";
